BUSY SESSION OF
COUNCIL BOARDSIMPORTANT MATTERS ATTENDED
TO LAST NIGHT.Committee of Whole and Special
Sessions Were Held in Turn.

MAYOR'S REQUESTS GRANTED

Business transacted by the general council last night, which met in a called session by Mayor James P. Smith, was of great importance. The general council decided to build a third story on the city hall, build a new fire station on the lot now occupied by the offices of the city engineer, street inspector and sewer inspector; improve Riverside hospital by putting up awnings, painting the inside and putting caps on the radiators. It heard the report of City Solicitor Campbell on the drainage proposition of the northwest section of the city and referred it to the sewer, sanitary and hospital committee and City Engineer Washington for an investigation of exact data.

The mayor was authorized to appoint a stenographer to take down the speeches at the state tax commission meeting in this city July 6.

No change was made in the market house ordinance and Mayor Smith will sign it.

The joint session put in the hands of the sewer, sanitary and hospital committee and the city solicitor the matter of conferring with the fiscal court and reporting back in regard to the building of a contagious ward or hospital at the county sanitarium.

The boards amended the ordinance, providing for the construction of Seventeenth street south from Broadway to B street, so that it shall read that the property owner shall bear all expense except the intersections of streets. The ordinance did read that a culvert which must be built should be paid by the city.

The boards allowed \$700 to John A. Jewell & Son, of Cincinnati, as first payment for the construction of a brick stack at the city light plant.

Sell Fire Station.

The motion made by Councilman Hannan on recommendation of Mayor Smith, for the improvement of the city hall and fire station was that the joint finance committee and the public improvement committee go ahead with the work, receive bids and let contracts for a third story on the city hall and a new fire station at a total cost not to exceed \$15,000, exclusive of the amount of money received for the present central fire station. Mr. Lassiter, the architect, gave an estimate of the cost of the raising of the city hall to a third story at \$13,949. Chief Wood informed the board that about \$4,000 worth of repairs are needed at the central fire station. Mayor Smith said on account of the needed repairs to the fire station it would be cheaper to sell it and with the money build a new central station on Kentucky avenue. The city has a standing offer for the central station of \$6,500, but the building and site will not be sold for that amount, as the property is of a greater value to the city.

Drainage Proposition.

City Solicitor James Campbell reported in regard to how the city and county must act together to get the drainage ditch. City Engineer Washington informed the board that it would cost the city and county about the same amount and Mr. Washington's estimate as to the total cost was \$43,900. Mr. Washington said the property will be greatly benefited by the ditch, from the Cairo road in Rowlandtown toward Oak Grove to Sixteenth street, thence to Broadway and out Broadway to Twenty-fifth street, out Twenty-fifth to Clark street then to the park, from the park to the Pines, across to the Hinkleville road, to Twenty-eighth street and then toward Perkins' creek. The largest cost to the city will be in building culverts under roads. The drainage proposition was referred to the city engineer and the sewer, sanitary and hospital committee, for them to report back at the next regular meeting.

KILL THE GERMS OF DANDRUFF

Parisian Sage Will Do It In Two Weeks or Money Back.

Do you know that the time to take care of the hair is when you have hair to take care of.

Baldness is caused by dandruff germs, little, hard working, persistent devils, that night and day do nothing but dig into the roots of the hair and sap its vitality.

If you have dandruff, get rid of it before it is too late; before the vitality of the hair root is impaired and baldness appears.

Parisian Sage is guaranteed by Gilbert's drug store to kill all dandruff in two weeks or money back.

This quick acting hair invigorator is now made and sold in America and at the low price of 50 cents a large bottle is within the reach of all who are afflicted with disgusting and repulsive dandruff.

When you buy a bottle of Parisian Sage you get for your money the most of the best hair tonic in the world.

Parisian Sage grows hair, stops falling and splitting hair and itching scalp.

Society women of refinement prefer Parisian Sage as a dressing because it makes the hair beautiful, soft and brilliant in a few days. It is daintily perfumed, is free from stickiness and grease and will not color the hair.

company sent a bill to the city for \$325.65 with interest due from October 10, 1906, for paving in front of the custom house, which the government has refused to pay. On recommendation of Mayor Smith this bill was referred to the finance committee to investigate and report back.

Mayor Smith has received complaints about the market house ordinance, which has been given two passages by both boards and is now waiting for the signature of the mayor to make it a law. The objection was made to the section of the ordinance, which says that no grocers will be allowed to purchase on market for his trade till 8 o'clock. The boards declined to change.

The need of a contagious ward or hospital was brought up by the mayor and he suggested that it be referred to some committee to confer with the fiscal court in regard to making some agreement with the county for part of the county sanitarium. The proposition was referred to the hospital, sewer and sanitary committee and the city solicitor to confer with the fiscal court and report back as soon as possible.

Riverside.

In the call Mayor Smith said several very much needed improvements were left out of the contract for the improvement of Riverside hospital and that the work should be done. The mayor suggested that awnings be put on the Fourth street side of the hospital, the interior be painted and caps placed on the radiators. The question of improvement was referred to the hospital, sewer and sanitary committee and the committee was given the power to receive bids and let contracts for the work.

The council transacted the business in the mayor's call first and then the aldermen met and concurred in the action taken by the council.

Those present were Councilmen Foreman, Bower, Duvall, Hannan, Lally, Mayer, McCarty, VanMeter, Wilson and Young; Aldermen Durrett, Hank, Lackey, Oehlschlaeger, Potter, Sherrill and Stewart. Alderman Lackey acted as president of the upper board in the absence of President Hannan.

The aldermen granted a quart liquor license to Sambucetti & company at 1021 Jefferson street. This liquor firm came to this city from Memphis and was granted a license last Tuesday night by the council.

TAKE ADVANTAGE OF CULLEY'S
USUAL GREAT CLEARANCE

Offer—The Store Is Closed Today in
Preparation for the Big Clean-
Up Sale Tomorrow.

In this day and generation, we are looking eagerly for, and keenly seizing upon any opportunity for money saving. For that reason we all are interested in the "Clean-Up Sale" advertisement of R. L. Culley & company, which appears in today's issue of The Sun. Until the advent of this enterprising firm, Paducah had its clearance sales, in a measure, but when it came time for a cut-price sale for this new firm, the way they went at it was at once a revelation and a joy to the bargain lovers,—and we are ALL bargain lovers. It was Culley & company that made the deep cuts on ALL merchandise, as it was Culley & company that included black and blue suits, and gave an unrestricted choice of any in the house. The way the people responded to their sales attests to a full appreciation on the part of the public.

Now, Culley's summer clean-up sale opens. The store is closed all day today and the clerks are busy going over the entire stock and marking down the prices. Tomorrow the big sales start, and EVERY department is affected.

From past seasons, we know what this means. You have unrestricted selections from stocks that are new, and NEVER find any odds and ends, old goods at Culley's, for these remarkable sales clean them out. This summer we will find better bargains than ever before, for the season has been backward. The crowds will come down early Saturday, prepared to save enough money on their clothing and furnishing needs to pay for a long, delightful vacation trip. Many anticipate their needs for the next season, as they certainly will be justified in doing on account of the big savings they find.

The objection to exercise is it is good for the health.

Administrator of Jim Hutchison, killed in Nebo mine near Madisonville, sues for \$10,000.

STATE PRESS.

Courier-Journal.

Commissioner Rankin's June crop report carries a note of optimism that will gladden the Kentucky heart. It has been a month of much rain, but general conditions are good, and looking into the details of the commissioner's report there is much of encouragement, not only for the farmer who "feeds us all," but for everyone who appreciates the beneficial influence of good crops.

To begin with, there is promise of a bumper crop of corn. The production, it is possible, may be even larger than last year, which saw an abnormal planting owing to the curtailment of the barley tobacco output. The acreage is immense and the condition is favorable.

The growing tobacco crop is the largest in acreage ever planted in the state. Of barley alone, it is estimated, the acreage is between 160,000 and 170,000. In the "Black Patch," where there was an effort on the part of the Planters' Protective association to hold down the setting to 10,000 plants to the hand, the outlook, nevertheless, is for a large increase in production. With good prices prevailing, the average grower is not disposed to hold down. On the contrary, he is strongly inclined to put out all the plants he can cultivate, and it would appear that that is about what he has done in all the tobacco-raising districts in the state. Despite the overplus of rain which has seriously interfered with working the crops, the general condition is reported good.

An interesting section of the commissioner's report is that which deals with alfalfa, comparatively a new crop in Kentucky. We are told that more alfalfa is being planted every year; that farmers are learning that it is about the best paying crop that can be raised; that the condition of the growing crop is splendid; that the first cutting was made in May and that five cuttings will be obtained in many parts of the state. In the light of these facts there is reason to believe that Kentucky in the near future will become a great alfalfa-growing state.

Louisville Herald.

Published extracts from letters of Mrs. Woodill to Bob Eastman indicate the mushy quality of mind and character that furnishes victims for such tragedies.

Sickly sentiment, erotic emotion and undigested philosophy of a semi-pagan nature reveal the need of some sterner teaching in the poor girl's earlier years to give her a mental and moral foundation.

The country is flooded with the silly affinity twaddle that revels in such similes as iron and loadstone, seed and soil, cloud and sky.

Here is a sentence that shows the kind of superficial rot upon which the unhappy woman had been feeding: "We are not of our own making, and our lives belong to another, Brahma, who rules and is wise."

This half-baked esoteric guff is preached by long-haired men and shallow-brained women to feeble-minded disciples of the type of Mrs. Woodill, and the revolting episode of the Maryland bungalow is its natural fruit.

The race is paying the penalty of having banished a personal devil and a material hell from its creeds. We need a little more Geneva theology; a little less mush, to make the kind of character that can resist evil and cleave to what is pure and good.

Finest Cigars

Hardly a day passes but some one of our patrons comments upon the exquisite aroma of our cigars. They realize at once the distinct difference between the perfectly seasoned fine quality stock which goes into our cigars. There's another difference, too—equally important—and that's the scientific way in which our cigars are seasoned and stored. There is no finer humidifier outside of Louisville than ours. Smoke one of our good smokes today and prove it. Finest imported and domestic brands.

IN SOCIAL CIRCLES

Joe Cannon's Partner's Romance.
Many Paducah people will be interested in the following Colorado Springs dispatch, telling of the marriage of Mrs. Steyer Fountain, sister of Mrs. Frank Boyd:

"Once more a romance, which dates back a generation or so, found its happy conclusion in this mountain city of the Centennial state.

"Judge E. R. E. Kimbrough, of Danville, Ill., prominent in legal and political circles, and Mrs. Steyer Fountain, of this city, were married.

"The wedding was the culmination of a childhood attachment between the contracting parties, both being playmates in their youth. As years elapsed, Judge Kimbrough and Mrs. Fountain, who was then Miss Emma Steyer, drifted apart and lost sight of each other. But Dan Cupid all the while had his watchful eye upon them and finally brought them together again.

"The marriage came as a great surprise to the elite of this city, who had no idea that Judge Kimbrough, who came here on a pleasure trip in the Pike's Peak region, contemplated matrimony. Mrs. Fountain has been a leader in society here for many years, and none of her friends had the slightest suspicion that she was soon to become a bride. When the wedding announcement was made there were many expressions of delighted surprise throughout the city.

"The wedding occurred at the home of Dr. E. R. Neepce, son-in-law of Mrs. Fountain, and one of the most prominent eye specialists of this state.

"At the home were gathered the family of the bride and a few of their most intimate friends, to witness the ceremony, which was performed by the Rev. Howard Agnew Johnston, D. D., pastor of the First Presbyterian church, and one of the foremost ministers of that faith in the United States.

"Judge and Mrs. Kimbrough left the city this evening for St. Louis and from that point will decide upon their further honeymoon plans. They expect to remain in St. Louis several days.

"Judge Kimbrough was also a former law partner of Speaker Joseph G. Cannon."

BUTCHERS GETTING ANXIOUS

People are eating more spaghetti—particularly Faust Brand Spaghetti, knowing it to be not only cheaper than meat and the equal of meat in nutriment, but the superior of meat as a food digested and productive of minimum body heat—a food that means hearty appetites at meals, and sustained energy between meals.

Faust Spaghetti also makes a strong appeal to the cook, for it can be served in such a variety of ways as never to tire the palate.

All enjoy it. Spaghetti Italian style—with tomato sauce, cheese, eggs, mushrooms, oysters—fried—in soup—and—dishes—these are but a few of the suggestions found in the book of recipes sent free on request.

Clean—pure—American made. Five and ten cents per sealed package. All grocers.

Oxygen for Fatigue.

Prof. Frederic S. Lee of Columbia University, while declining to express a final opinion about Weichardt's anti-toxin for promoting recuperation from fatigue, says that it seems probable from recent experiments that lack of oxygen is a potent factor in producing fatigue. Hill appears to have demonstrated the efficacy of oxygen taken into the lungs in quickly restoring one who is suffering from extreme fatigue.

HARVARD WINS FROM OLD ELI

CRIMSON CREW FINISHED SIX LENGTHS AHEAD OF BLUE.

Harvard Kept Lead From First Half Mile, Gaining as Every Half Mile Flag Was Passed.

40,000 WITNESS THE BOAT RACE.

New London, Conn., July 2.—In a grand exhibition of rowing by a crew remarkable for its physical power and endurance, Harvard defeated Yale in their annual varsity boat race on the Thames. The Crimson crew led from start to finish and won by six boat lengths. Harvard's time was 21:50; Yale's 22:10. By the victory Harvard won the second consecutive boat race from Yale in 28 years.

The greatest crowd that ever assembled here on the Thames poured into New London to witness this race. It was estimated that at least 40,000 people witnessed the spectacle. Although Harvard won by a handsome margin and administered a crushing defeat to Yale, the race was nevertheless a contest right up to the last half mile. All the way up the river the two eights rowed with almost equal precision and a slip of any kind in either shell would have turned victory into defeat in a few seconds.

But there was no break in the Harvard boat. Rowing all way two strokes and sometimes three strokes to the minute more than Yale, the crimson eight crept away from the blue little by little. For two and a half miles Yale kept within a scant boat's length of her rival. Then Harvard put on her power and increased her lead first to three lengths, then to four and finally to six. Yale spurred with her old-time determination but it was in vain.

Official Records.
The record of the race as kept by the official timers was: Harvard, half mile, 2:20; one mile, 5:10; two miles, 10:45; three miles, 16:10;

four miles 21:50. Winning distance, six lengths.
Yale, half mile, 2:27; one mile 5:12; two miles, 10:48; three miles 16:20; four miles, 22:10.

It was just nine minutes past six when the crack of the referee's pistol started the crews in the race. Both got away in fine form. Harvard rowing 39 strokes, Yale 38. After the racing starts had been rowed out the blue crew slowed down to 33, Harvard to 36. At the half mile Yale had let her stroke down to 31 but Harvard had dropped only to 34. Over this half mile the struggle was practically an even one up to within a few lengths of the flag when Harvard began to push the nose of her shell to the front. At the flag Harvard had the lead by one second. On the second half mile Harvard increased her lead one more second reaching the mile two thirds of a length ahead of Yale. Harvard was still rowing 34, Yale 31.

Gained Another Second.

On the third half mile the crimson gained another second and at the mile and a half flag had a lead of practically a boat length. Yale was now rowing 32 while Harvard held her gait at 34. On the fourth half mile

there was no change in positions nor strokes. Just beyond the two mile flag Yale made her first determined effort to cut down Harvard's lead. Wallis, the blue's stroke, raised his gait to 34 and for a few lengths it looked as though he would be able to overtake the Cambridge boat. But Roger Cutler raised his stroke two points and by so doing was able to hold Yale.

Harvard passed the two and a half mile flag still leading Yale by three seconds. Yale dropped her stroke back to 32 but Harvard kept hers at 36. At the three mile flag Harvard was rowing 35 and had a lead of three boat lengths. Yale raised her stroke to 34 but soon dropped back to 32. Harvard held to 35 and continued to gain on the blue. At the three and a half mile flag Harvard was leading by 14 seconds having increased her lead by four seconds at every stroke. Yale put the stroke up to 36 and Harvard raised hers to the same rate and crossed the line 20 seconds ahead of Yale, leading by practically six lengths. Every man in the Yale boat finished the race at his oar still fighting gamely.

General Hub-bub.

Crowding in close to the finish were

hundreds of yachts and launches of every kind and description. Down this avenue the crews sped while cannons boomed and whistles and horns tooted, shrieked and groaned. In less than a minute after the race was over the two eights rowed off to their quarters. Yale in the gloom of defeat Harvard amid the noise of glory and victory, to fall into the arms of 350 old graduates who had tumbled out of observation trains and hurried down to the Harvard boat house. Then followed a procession of the victors back to New London, where the victory was celebrated.
